

Mask-R-Aid™ Granules

(Flavor Aid to Simplify Medication Administration)

- ▶ **Industry-first formulation developed to help veterinarians and horse owners improve the administration and consumption of non-palatable medications, supplements, grain and other products by horses.**
 - Simple to use...just mix the appropriate amount of flavored granules with the medication to enhance the acceptance of the medication/product.
 - The amount to use will vary depending on the veterinarian's prescribed dose for the medication product being masked or the amount of grain being flavored.
 - Excellent flavor aid to simplify the administration to horses of products like powdered thyroid supplements, unflavored phenylbutazone powders or paste, pergolide, aspirin, etc.

- ▶ **Palatable granule dosage simplifies daily dosing.**
 - Convenient for the horse owner to use daily for mixing with the prescribed medication and then administering to the horse.
 - Ensures complete consumption of the prescribed dose generating better clinical results.

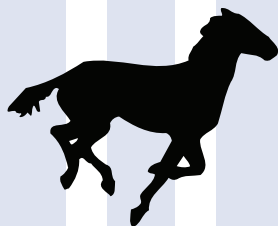

- ▶ Formulated with a proprietary, **highly palatable sweet apple and molasses flavor** to guarantee horses will readily consume the complete mixture.
 - **Improves dosing compliance and consumption which will lead to better clinical results.**

- ▶ Safe and effective flavoring aid.
 - Includes inverted sugar as a palatant, which is a natural sugar derived from plants that is sweeter tasting to improve acceptance.
 - Delivers **only 25 calories (kcal) per 10 gram scoop.**

- ▶ **Guaranteed Analysis:**
 - Crude Protein (min.)9.0%
 - Crude Fat (min.)2.0%
 - Crude Fiber (max.)16.0%
 - Moisture (max.)10.0%
 - Inverted Sugar (min.)5.0%

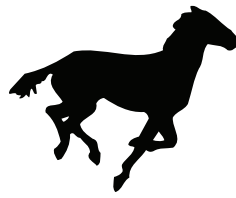

- ▶ **100% Palatability Acceptance Guarantee.**
 - Pala-Tech guarantees horses will readily consume this supplement. If your client's horse does not like the taste of this product, simply contact your authorized Pala-Tech Veterinary Distributor for replacement product.

- ▶ Professionally packaged in an **easy-to-open, user-friendly plastic container.**
 - Contains 350 grams/container. Includes 10 gram scoop for dosing.
 - Container and lid is recyclable.

EQUINE

Mask-R-Aid™ Granules

(Flavor Aid to Simplify Medication Administration)

- A solution for the dosing of unpalatable medications.
- Ensure complete consumption of the administered dose. Better clinical results.
- Flavored with a sweet apple and molasses flavor horses love to eat.

Pala-Tech™ Equine Mask-R-Aid™ Granules is an all-natural specially formulated flavor aid to simplify the administration of non-palatable products. Mask-R-Aid Granules is a proprietary, highly palatable sweet apple and molasses flavored granule used to enhance the acceptance of medications and supplements or to flavor the horse's grain.

Recommended Use: The amount to administer will vary based on the veterinarian prescribed dose of medication that is being masked or the amount of grain being flavored.

Administration: A 10 gram dosing scoop is enclosed in the container. Mix the appropriate amount of flavored granules with the product and then administer over or mix in with the horse's food at mealtime or as often as needed.
